THE TRADE RETURNS.

The trade and navigation tables for the fiscal year 1891 have been received. Among the facts which may be learned form this book are the following:—

The total value of the exports of Canadia for the year was \$98,417,296. This exceeds the value of our saies for any year since Confederation except 1882, when prices were very high. The average value during the period since Confederation is less than \$4,000,000. The average during the period when Sir Richard Cartwright was Finance Minister was less than 850,000,000. The average during the period when Sir Richard Cartwright was Finance Minister was less than 850,000,000. The average during the period when Sir Richard Cartwright was Finance Minister was less than 850,000,000. The average during the period of imports was \$110,007,638. This was exceeded in 1873, 1874, 1876, and see the country would responded with analy obstacles, but they could all be successfully overcome. The Government bounds constitute of the chartered banks, and authorise the latter through their solicitors to make the latter through their sol The value of imports was \$119,907,638.

This was exceeded in 1873, 1874, 1875, 1883 and 1890, five years out of the 24 since Confederation. The average since Confederation has been \$105,000,000.

The average from 1874 to 1878, inclusive, \$107,000,000.

The Free Press quotes the following as an argument against the National Policy. Mr. Thomas Ferris, of Manitoba, has been buying horses in this country for the past weeks. He has purchased two car loads and says they counting \$1,200 loss than he polity pressure to the passing of the McKimley Bill. This is just so much money out of the pockets of the formers of this county. This is an object lessen for farmers who vote for high tar-fifs.—Windsor Record.

Does it ever occur to the opponents of the N.P. that if Mr. Ferris who is buying for the Manitoba markets got his horses so much less in Ontario in consequence of the N.P. he can sell them so much 1 so to the farmers of Manitoba; and that they, in whom of all others we are most interested, make that \$1200 by the N.P. That's a practical way of looking at it from a Manitoba standpoint.
